Mini-Butts Personal Ashtrays are the hottest promotional product around because not only are they a talking point and promote the organisation advertised on them, they also make a stunning display of environmentally responsible trading by giving smokers the ability to always "do the right thing" with their cigarette butts. Logo printed Mini-Butts eliminate "Affiliated Butt Litter, ie - the butt litter emanating from employees, patrons, attendees, members, passengers, guests, visitors, etc. Mini-Butts will also be seen, used and appreciated long after the smoker has received them.
