

Ten reasons to kick your golfer's butts.

1. Cigarette butts are the most littered item on the planet and take from 4-15 years to break down. They are toxic, poison wildlife and pollute our waterways.
2. Every year people are injured or killed, property is damaged and wildlife and stock decimated by fires directly caused by discarded cigarette butts.
3. Cigarette butts look disgusting and spoil the appearance of any location. Butt litter attracts more butt litter. Today's smokers see yesterday's butts, so they litter too, and so on, and so on.
4. Your grounds staff have much better things to do than to have to pick up discarded cigarette butts one by one. The toxins in littered butts can also damage & discolour sensitive golf course grasses.
5. Most smokers like to do the right thing if they can, but they can use some help.
6. Putting a personal ashtray into the hands of your smoking patrons means that they can easily always do the right thing *wherever* they are on your course, and wherever else they go.
7. Experience has shown that banning smoking on golf courses can not only affect patronage, it is simply impossible to enforce - and ultimately never successful. That's why over 1,000 Golf Clubs and Resorts around the world now provide Mini-Butts personal ashtrays to their smoking patrons, visitors, guests and members - and require smokers to use them if they intend to smoke..
8. Though most sports facilities provide complimentary personal ashtrays, many others charge a small fee for them. Considering that cigarettes cost near \$20 per pack, smokers don't mind paying \$3-\$5 for a handy little item that they can take away with them. This ensures that your butt litter reduction campaign is completely self funding.
9. When logo printed, Mini-Butts are a sensational eco-friendly promotional product that will be seen, used and appreciated, and help enhance your eco-image, long after they've left your golf course.
10. Management can easily take the lead in protecting your location from cigarette butt litter because for around \$2.00 each, Mini-Butts are an economical, effective and sustainable solution to the insidious problem of cigarette butt litter. The problem is prolific but the solution is simple.

"Our Mini-Butts Personal Ashtrays from No Butts are brilliant and have virtually eliminated butt litter on our property. The response from our patrons and grounds-staff has been fantastic."

Rick Scott, Maryborough Golf, VIC

Over 1,000 golf, bowls & sports clubs have adopted Mini-Butts Personal Ashtrays.

...because the world is not an ashtray.
