**Eco-Pole Ashtrays** are now the best selling freestanding/bollard ashtrays and wall & post mounted ashtrays in Australia - by far.

Here's why:

**Special Offer: Order 4 Eco-Poles and get your 5th Eco-Pole FREE!**

*"Eco-Poles represent excellent value for money and provide unbeatable features for \$100s less than their competitors. We're now progressively changing our old units over to No BuTTs Eco-Poles. Great Product!" - Garry Fetter, AMP Capital, VIC*

*"No Butts Eco-Poles have eliminated the problem of butt litter around our property. Unlike the other units we used before, Eco-Poles have a butts only entry point and have solved the problem of people stuffing their litter into the ashtray which rendered them unusable. The portable option allows us to place them wherever functions are being held at our winery, and then put them away when they're not needed. Great product!" - Tony Ramunno, Witchmount Estate Winery*

*"Apart from the fact that Eco-Poles look great, our maintenance staff also love the simple one-step emptying process that allows them to empty our Eco-Poles in around 5 seconds. No Butts products are first rate, they were a pleasure to deal with and made everything easy." Joel De Santos, Kings Plaza, SA*

*"We are delighted with our Eco-Pole Ashtrays. They look great, work very well and our guests & visitors are happy to use them. Being able to use them in portable mode, when and where we need them is an absolute breakthrough, and the recent addition of crowd control rope rings is ingenious. Receiving a bonus Eco-Pole was an offer too good to refuse." - Neville Buss, Dog Rock Motel, WA*

**Eco-Poles with CCR also available as a Wall or post Mounted Ashtray!**
