

Who wins with our bins?

- **Owners & Operators**

Stops stray butts degrading the front of your business and dramatically reduces the need for staff to frequently wipe down dirty ash covered tables. Eliminates the risk of having to redo meals tainted by ash, or worse, wind blown butts.

- **Staff**

Can concentrate on excellent customer service instead of picking up stray butts and constantly wiping down tables and chairs. And there's no need to frequently empty overflowing ashtrays before, during and after meals.

- **Smoking Customers**

Smokers prefer windproof ashtrays because no-one likes a face full, or plate full of ash and dirty butts. Most smokers also do want to do the right thing for the environment, and like to avoid any complaints from non-smokers at other tables.

- **Non-Smoking Customers**

Non-smoking customers love windproof ashtrays because they despise ash & butts from smokers at adjoining tables getting in their face, or in their meals. They also hate smouldering cigarette butts. Windproof ashtrays extinguish smouldering butts.

- **Your Neighbours and Local Community**

Windproof ashtrays eliminate the ugly sight of butts littering the ground around footpath tables and chairs. People who work or live in the area also appreciate good corporate citizens who clearly assist in protecting their local environment.

- **The Environment**

Butts that end up on the footpath & street usually end up in the gutters and drains. And from there those butts end up in our waterways - polluting our creeks, rivers, bays, harbours and beaches. Windproof ashtrays help protect our environment.

- **Council & Trading Permits**

Councils are increasingly coming down hard on businesses that make the problem of cigarette butt litter worse by issuing fines, suspending or even canceling footpath trading permits. Windproof ashtrays eliminate any risk to your footpath permits.

(Everyone wins.)

The Butts **Stop** Here.

Windproof Ashtrays • Wall-mounted Ashtrays
Personal Ashtrays • Free-standing Ashtrays

Simple maths for the hospitality industry.

$$\text{Cigarette Butt} + \text{Cigarette Butt} = 2 \text{ Butts}$$

$$\text{Smoker} + \text{Smoker} = 5+ \text{ Butts}$$

$$\text{Smoker} + \text{Ashtray} = \text{No Butts}$$

It doesn't take a genius to figure out that Mini-Butts Personal Ashtrays can eliminate cigarette butt litter at outdoor tables.

That's why over 2,500 Cafes, Restaurants, Bars, Clubs & Hotels are now using our Windproof Ashtrays.

Protect the environment. Protect the appearance of your property.
